

Power Standard 4

Practice Test

Vocabulary:

1) Improper fraction

- a. A fraction with a numerator less than the denominator.
- b. A fraction that can be reduced.
- c. A fraction that has a value greater than one.

2) Multiples

- a. The top number of an improper fraction.
- b. A list of whole numbers that result from multiplying a whole number by 1, 2, 3, 4 etc.
- c. A list of whole numbers that can be multiplied together to get another whole number.

5) LCM

- a. Used for adding and subtracting fraction, it's the least common median
- b. Used for reducing fraction, it's the largest common multiple
- c. Used for adding and subtracting fraction, it's the least common multiple

6) Factors

- a. The whole number in a mixed number.
- b. A list of whole numbers that result from multiplying a whole number by 1, 2, 3, 4 etc.
- c. A list of whole numbers that can be multiplied together to get another whole number.

7) GCF

- a. Used for reducing fraction, it's the greatness common fraction
- b. Used for reducing fraction, it's the greatness common factor
- c. Used for adding and subtracting fraction, it's the greatness common factor

8) Simplify

- a. To divide the numerator and denominator to get the lowest whole numbers
- b. To multiply the numerator and denominator to get the lowest whole numbers
- c. To divide the numerator and denominator to get the greatest whole numbers

9) $\frac{2}{6} + \frac{1}{6} =$

10) $\frac{1}{6} + \frac{1}{4} =$

11) $\frac{3}{5} - \frac{1}{2} =$

12) $\frac{3}{4} - \frac{1}{5} =$

13) What is the greatest common factor (GCF) of 8 and 30? _____

14) $\frac{2}{15} \times 5 =$ _____

15) $5\frac{5}{8} \times \frac{1}{3} =$ _____

16) $5\frac{1}{2} \times 1\frac{1}{4} =$ _____

17) $\frac{1}{5} \div \frac{1}{3} =$ _____

18) $\frac{1}{3} \div 5 =$ _____

19) $2\frac{1}{5} \div 1\frac{2}{3} =$ _____

20) Jim bought $\frac{2}{3}$ pound of peanuts, $6\frac{1}{6}$ pounds of almonds, and $\frac{1}{12}$ pound of walnuts. What is the total weight of Jim's purchase?

21) Jill is typing a report. She typed $\frac{4}{9}$ of the pages in the report in the morning and $\frac{1}{7}$ of the pages in the afternoon. What fraction more of the pages did he type in the morning?

22) In a vegetable garden, $\frac{5}{8}$ of the plants are peppers. Of those peppers, $\frac{3}{4}$ are red peppers. What fraction of plants are red peppers? Show your work.

23) In a rock garden, $\frac{7}{10}$ of the rocks are igneous rocks. Of those rocks, $\frac{3}{4}$ are pegmatite rocks. What fraction of rocks are pegmatite rocks? Show your work.

24) Mrs. Crumling divided $\frac{3}{5}$ pound of chocolate into 9 equal sections. How much chocolate was in each section?
